

# Antibiotic Insights: Tolerance Mechanisms, ABC Transporters and Bacterial Responses

**Urs Jenal** – Universität Basel

How *Pseudomonas aeruginosa* survives antibiotic treatment:  
Towards a mechanistic understanding of drug tolerance

**Dirk Slotboom** – Rijksuniversiteit Groningen

Directionality of translocation by ATP-binding cassette transporters (in-or-out)

**Toby Wilkinson** – Helmholtz Institute for RNA-based Infection Research

Bacterial response to programmable antibiotics

February 23<sup>rd</sup> 2024  
2 pm

Aula van de Tweede Hoofdwet  
Kasteelpark Arenberg 41  
Leuven
